Liveable Cities and Towns

We believe the places we live, work and enjoy ourselves should be planned around people, not cars. And we want to see traffic reduction in our neighbourhoods, resulting in flourishing communities and thriving businesses.

Paths for Everyone: National Cycle Network

We're the custodian of the National Cycle Network – the UK-wide network of over 12,000 miles of signed paths and routes for walking, wheeling, cycling and exploring outdoors.

A UK-wide
Network of traffic-free
paths for everyone,
connecting cities,
towns and countryside,
loved by the
communities
they serve.

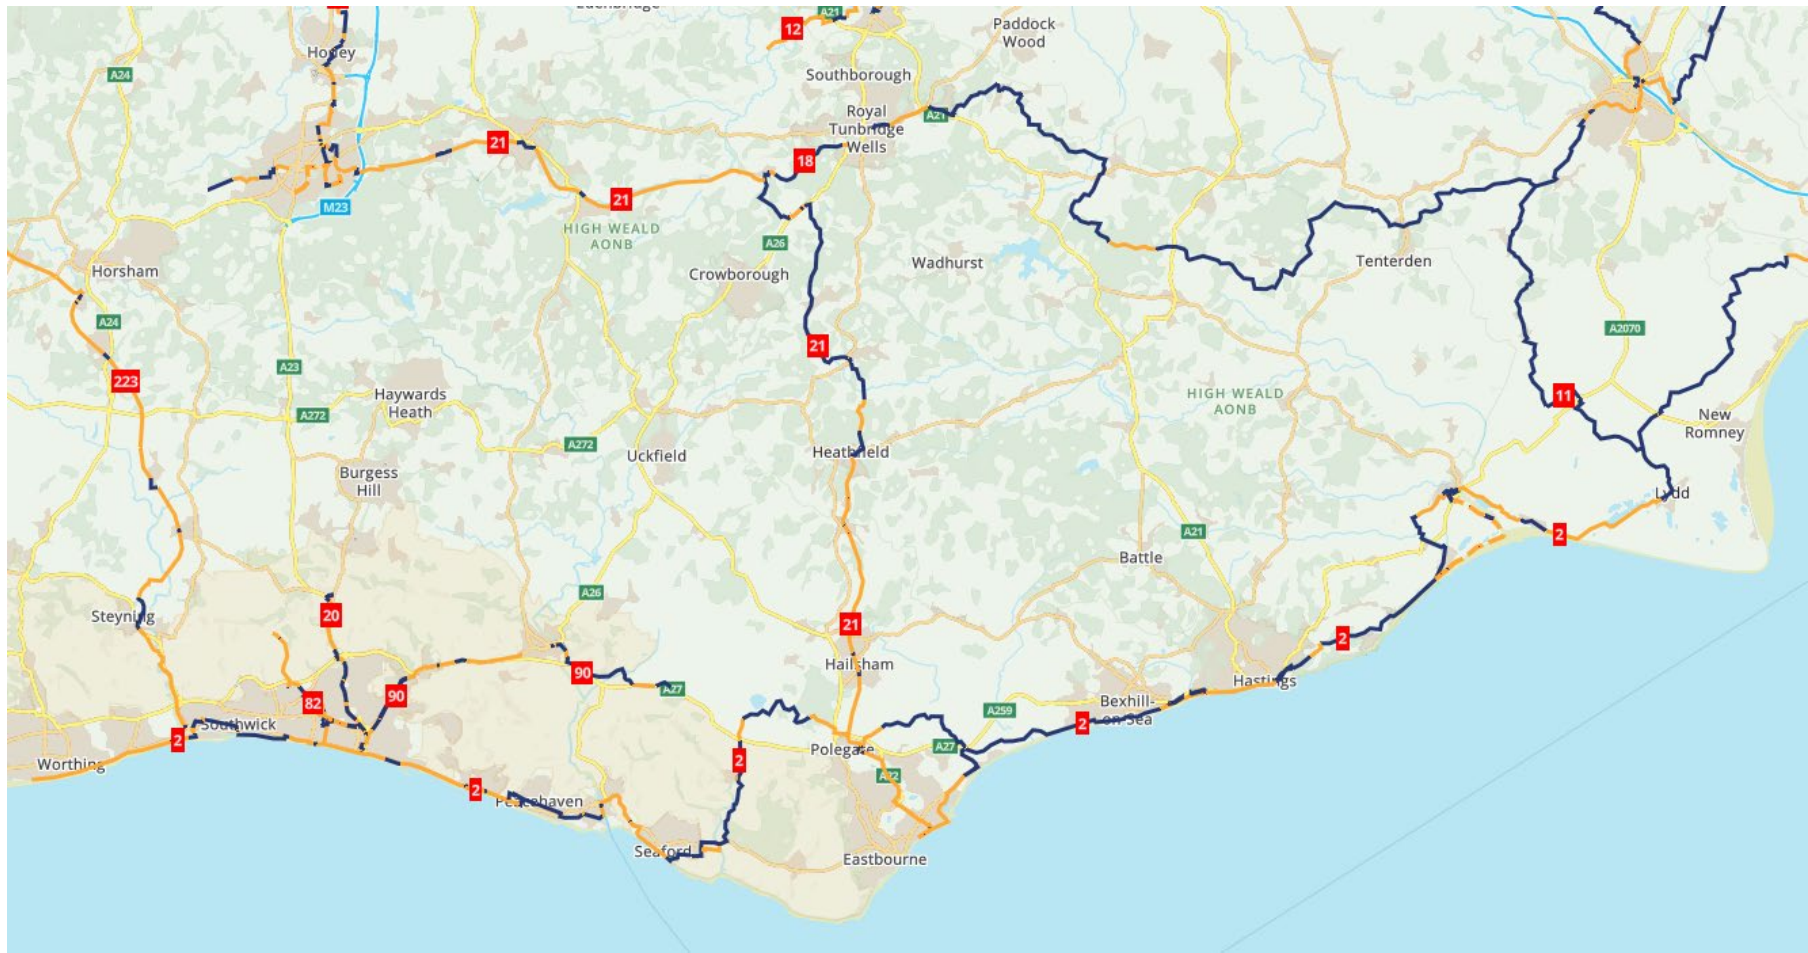

The National Cycle Network is made up of **12,786 miles** of signed routes spanning the UK.

The Network passes within one mile of around half of the UK population. In 2019 it carried an estimated **764.8 million trips...**

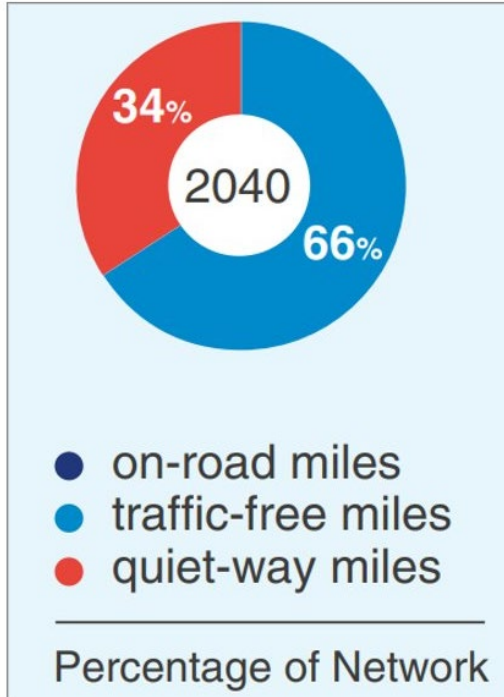

It is used by walkers and people cycling, as well as joggers, wheelchair users and horse riders.

National Cycle Network around Sussex

Gold sections are traffic-free and *Dark Blue* is on-road

Paths for Everyone By 2040...

GIS Network Development Plan

Example of a Stage 2 high-level solution plan: The blue lines show the proposed alignments in more detail. In some places this includes both a quiet-way and a traffic-free option.

Some local priorities...

1. 2040 targets
2. “For Everyone” - barrier removal
3. Network Development – aligning corridors
4. Wayfinding/signage
5. ATE, NH, LCWIPs/LTPs, TfSE and RATSAP
6. Spatial Planning

Sustrans is the charity making it easier for people to walk and cycle.

We connect people and places, create liveable neighbourhoods, transform the school run and deliver a happier, healthier commute.

Join us on our journey.
